A Better Car than the Chrysler Six has yet to be made

Chrysler Six Results Mean a New Measure For All Cars

Motor wise people know that the Chrysler Six makes the possession of any other car seem a useless and costly expenditure.

The Chrysler Six

SPECIAL INSTRUCTIONS FOR USING **AUTOMATIC TELEPHONES**

A number with a letter prefix is an automatic phone and you can dial it from your phone by dialing the letter and then the numbers in their consecutive order.

To get numbers without letter prefix dial W-4 and give number to operator.

EACH LETTER AND FIGURE MUST BE DIALED SEPARATELY. WHEN DIALING W-4 YOU SHOULD DIAL "W," ALLOW THE DIAL TO RUN BACK, THEN DIAL "4."

OBTAIN THE CORRECT TELEPHONE NUMBER FROM THE DIREC-TORY before attempting to make a call. If it is difficult for you to remember the number write it down before attempting to dial. If the person or firm is not in the directory ask "Information" to furnish you the number.

REMOVE THE RECEIVER FROM THE HOOK, being careful not to "jiggle" the hook in doing so as it will cause you to get a wrong number.

Always place the receiver to the ear and listen before you start to dial to be sure that the line is not in use. If a conversation is heard, hang up the receiver and wait until you believe the conversation is completed before making another attempt.

If no one is talking, operate catch to release receiver hook if phone is equipped

HOW TO DIAL—To dial any figure or letter place your finger firmly in the hole in the dial associated with such figure or letter. Pull the dial around until your finger strikes the finger stop. Then remove your finger and let the dial return to rest without touching it. Any attempt to hasten or retard its motion will interfere with the operation of the equipment and probably result in a wrong number.

Each letter or figure must be dialed in its consecutive order to obtain the desired number. W-4 requires two pulls of the dial.

If party desired is on your line follow instructions on PARTY SUBSCRIBERS RING BACK NUMBER CARD.

Always allow the dial to come to a full rest before dialing the next figure. Too rapid dialing does not permit the apparatus associated with the dial to function completely.

Do not move the dial before removing the receiver or in the act of removing the receiver, as a part of the dialing may be completed before the receiver hook is fully released. A wrong number would result.

Do not move the dial while talking as it will break the connection.

Do not replace the receiver while dialing.

IMPORTANT—If, before you complete dialing, you find that you have made an error, or if your finger slips out of the hole while dialing before you have pulled the dial around to the stop, hang up the receiver for a few seconds. Then take the receiver off and dial the entire number again.

WAIT FOR RINGING SIGNAL OR BUSY SIGNAL—After dialing is completed, place the receiver to your ear and wait for the "ringing" signal or "busy" signal. Either the "ringing" signal or the "busy" signal should be heard soon after you have completed dialing. If neither the "ringing" signal nor the "busy" signal is heard and no operator answers, replace the receiver on the Hook for a few seconds and dial the number again. If, after a second attempt to call a number, you have not heard either the "ringing" signal or the "busy" signal, dial W-4 and ask for Trouble Department and report to them. Department and report to them.

THE RINGING SIGNAL is an intermittent "burring" sound. This signal, heard at intervals after you have completed dialing, informs you that the bell of the called telephone is ringing. You will understand from the audible ringing signal that the called station is being rung and will continue to ring as long as the called subscriber does not answer and the receiver of the calling station is off the switchhook. Hang up your receiver when you think the called party has had time to answer, but has not answered.

The BUSY SIGNAL is a rapid "buzz-buzz" sound. This signal heard after you have dialed informs you that the called line is busy. If you are calling a station which is on a party line it does not necessarily mean that the particular telephone called is busy, but that some telephone on the same line is in use. When you hear this "busy" signal, hang up the receiver and call again a little later.

HANG UP THE RECEIVER AFTER YOU HAVE FINISHED TALKING

HANG UP THE RECEIVER AFTER YOU HAVE FINISHED TALKING to disconnect your telephone from the telephone you have called.

Do not move the receiver hook up and down after you have established a connection or before you have finished talking, for to do so will break the connection. If the party to whom you are talking is disconnected, hang up your receiver for a few seconds and, if you are the calling party, dial the entire number again. If, however, you were called by the person to whom you have been talking and disconnection occurs, hang up the receiver and wait to be called.

KEEP THE RECEIVER ON THE HOOK FOR A FEW SECONDS BEFORE MAKING ANOTHER CALL—If you wish to make a second call after completing the first, it is necessary to hang up the receiver for a few seconds before starting to dial to give the equipment time to break the first connection. Likewise, after receiving an incoming call an attempt to dial a number should not be made for a few seconds after you have hung up the receiver.

TO GET OPERATOR, DIAL W-4.

TO GET U. S. LONG DISTANCE, DIAL W-95.

TO GET PACIFIC LONG DISTANCE, DIAL W-96.

FOR INFORMATION OR TROUBLE, DIAL W-4 AND ASK FOR DE-PARTMENT WANTED.

Rules for Good Service

1. Use the Directory. Never try to remember a telephone number. It's all right if you do remember; but to try to remember is to begin to guess. If you have the least doubt about it, look it up and thus save time and trouble.

2. Spell out all numbers by giving each figure separately, as "Two, five, six, one," for "2561;" "two, oh, oh, four," for "2004." Avoid the use of extra words, such as "Please." (The following of this rule is essential to good service. A majority of errors in calls are directly traceable to confusion between "eighteen" and "thirteen" and "twenty-three" and "thirty-three," "three" and "please," etc., which sound so much alike over the telephone).

3. Speak Distinctly, especially when giving the number to the

operator, and when talking over a toll line. Talk into the mouth-piece.

Verbal orders cannot be received for new service or changes. Subscribers vacating premises should arrange for closing bill, otherwise the Company holds them responsible for all charges.

5. Answer Your Bell Promptly. A ring means a friend calling

you-don't make him wait, or perhaps miss you entirely.

Do not remove the receiver from the hook Until Your Bell Stops

Ringing.

6. Be Brief but Courteous to the Operators. We require them to be so to you. They have no time to converse with you; they do not know subscriber's names; they deal entirely with numbers. Courtesy, like virtue, is its own reward, but pays extra dividends in connection with telephone service. Try it.

P. S.—By the way, when you know that a false call is due entirely to your careless use of the wrong number, why not acknowledge it to the "innocent bystander" who answers the call? Why leave the

Operator to shoulder the blame?

7. Call for "Information" when you can't find the telephone number you want, or to get answers to any question regarding subscribers' names, numbers, or addresses. Your regular Operator cannot answer such questions.

8. Report all line trouble to Trouble Department and inattention of Operators to Chief Operator; if not attended to promptly, communicate with manager by mail. Do not call employees at their homes.

9. Advertise That You Have a Telephone, BUT DON'T PUT ITS NUMBER ON YOUR LETTER HEADS, CARDS OR

WAGONS. Why? Because this only increases the amount of trying to remember such numbers by the public, also the continued use of obsolete numbers—which in turn only hurts the service and doesn't help your business at all. Think this over. We reserve the right to

change telephone numbers at any time, without notice.

10. Be Reasonable. You always are—yes, of course—but what we mean is this: It is unfortunate for us—that a telephone subscriber sees nothing, when getting service, but himself and one telephone instrument. He doesn't see the other thousands of subscribers and he gets no idea of the work we are really doing and the violent and uncertain changes in the number of calls given us at various hours of the day. Ask yourself these questions: "Does any other company or store in town wait on me so uniformly promptly, or cause me so little direct loss of time, as does the Telephone Company?" So we repeat—be reasonable in your complaints, and patient withal, if the Operator is occasionally too busy, waiting on other customers, to give you instant attention. Meanwhile we will undertake to make your average service prompt and the longer delays reasonably few and far between. When you are not satisfied with it, don't discuss the matter with the Operator, but write our Manager about it.

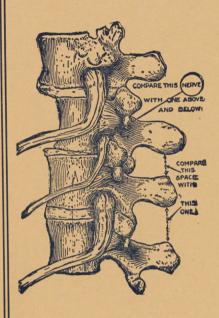

11. The use of profane or obscene language over the wires is positively forbidden, and the use of the local lines limited to five minutes. The Company reserves the right to disconnect or remove

a telephone without notice for such cause.

12. The Company assumes no liability because of errors or omissions in its Directory. In case an error appears it should be reported immediately to the Commercial Department.

The same at the state that would be nearly all the same and and the same and and the same and th

TO THE PUBLIC:

The Chiropractors named herein practice standard methods only, as contained in the following definition.

CHIROPRACTIC DEFINED

Chiropractic is the science of palpating and adjusting the human spinal column by hand only. All other methods are not Chiropractic.

Chiropractic practice as herein defined and used by the subscribers hereto is in accord with the educational articles of the Universal Chiropractic Association, appearing currently in the National Magazines.
